Summary

Motivated and hard-working programmer with a deep passion for continuous learning and personal development. Known for a responsible approach to tasks and a proactive mindset in tackling challenges. Possesses a strong affinity for technology and thrives on analyzing and solving complex problems.

Technical Areas of expertise

- Javascript (Express, Node, React) (1 Year)
- Python (3 Years)
- Odoo (2 Year)
- Django (1 Year)
- Handling database using Mysql, MongoDB and Postgresql

Industries

- Software Consulting (2 years)

Professional History

PT. Nurosoft Consulting

- Odoo Developer (2022-2024)

Education

Institut Teknologi Sepuluh Nopember Surabaya

Bachelor of Informatics , GPA : 3,79

Relevant Projects

Picket Schedule

Developed a web application using JavaScript with Express and Node.js to manage picket scheduling within the company. The application allows administrators to create, modify, and track picket schedules efficiently. Deployed the application to cPanel for easy access and usage.

Question Selection in The Adaptive Assessment System using Fuzzy Rule Base

Developed a web application quiz using Python with Django framework tailored for elementary school students. Implemented an Adaptive Assessment System utilizing Fuzzy Rule Base for intelligent question selection based on student performance. Deployed the application to Heroku for seamless accessibility.

Odoo Customization

Developed custom modules for Odoo, an open-source ERP platform, tailored to meet specific user requirements. Utilized Python, JavaScript, and XML to implement customizations in the CRM (Customer Relationship Management), Sales, and POS (Point of Sale) modules.
